

بِسْمِ اللَّهِ الرَّحْمَنِ الرَّحِيمِ

VERSION 12 · OCTOBER 2026

Amalnama

Your daily record of good deeds

COMPLETE FEATURE GUIDE & USER MANUAL

Prayer, Quran, hadith, an Almufti, Qibla, mosques, hifz, family budgets, Islamic media, the Mazlum Corner and a private community — everything a Muslim needs in a day, in one free app.

DESIGNED & DEVELOPED BY

Yeasin Arafat

uowyeasin-cyber.github.io/AmalnamaForever

WELCOME

Inside this guide

Amalnama (আমলনামা) is a free, ad-free Islamic companion that installs from the web like an app. It works offline, speaks six languages and keeps your data on your own phone unless you choose to sync it. This guide walks through every feature and how to use it.

The five tabs at the bottom

TAB	WHAT LIVES THERE
Today	Next prayer countdown, Hijri & Gregorian date, today's note, exams, assignments and events.
Amal	Quran, hadith, azan, dua, Qibla, Masjid & Surau, Hifz tracker, daily deeds and after-prayer reminders.
Finance	Academic, personal and business money, upcoming expenses, Family budget & goals.
Media	Islamic videos by category, the Mazlum Corner, community posts, stories, messages and calls.
Shariah · More	Masail books, Sihah Sittah, Zakat, Islamic days · Mazlum Corner, screen time, language, notifications, settings, backup.

01 INSTALL IN A MINUTE Getting started

Install the app

Android

Open the link in Chrome → tap **Install** (or ⋮ → Add to Home screen).

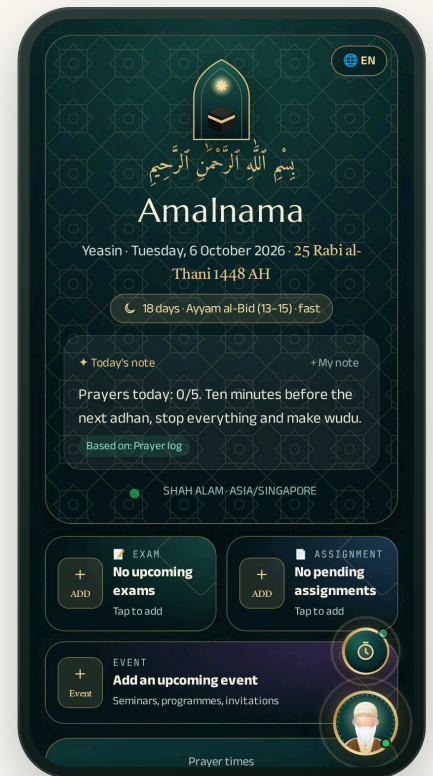

iPhone

Open in Safari → Share → **Add to Home Screen** → Add.

Computer

Chrome or Edge → the install icon in the address bar.

TODAY SCREEN

SCAN TO OPEN & INSTALL

First-time setup

- 1 **Choose your language** — বাংলা, English, Melayu, العربية, اردو or Kiswahili. Change it any time from More > Language.
- 2 **Set your city** — prayer times, azan and Qibla are calculated for it. GPS can fill it in for you.
- 3 **Turn on notifications** — for azan, reminders, messages and incoming calls (even when the app is closed).
- 4 **Add your name and study details** (optional) — used on Today and in exams and assignments.
- 5 **Connect Google** (optional) — sync between phone and laptop, back up, and add events to Google Calendar.

No sign-up needed. Everything except the community works without an account. Your notes, deeds and money stay on your device.

Moving around

- **Bottom bar** — the five main tabs. The floating buttons on Media open Posts and Messages.
- **Back** — the < button or your phone's back gesture; the app remembers where you were, even after refresh.
- **Mufti button** — the round scholar avatar floats on every page; tap it to ask a question.

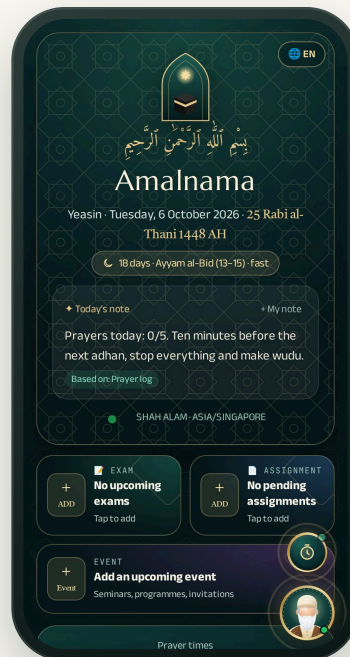

02 YOUR DAY AT A GLANCE

Today & prayer times

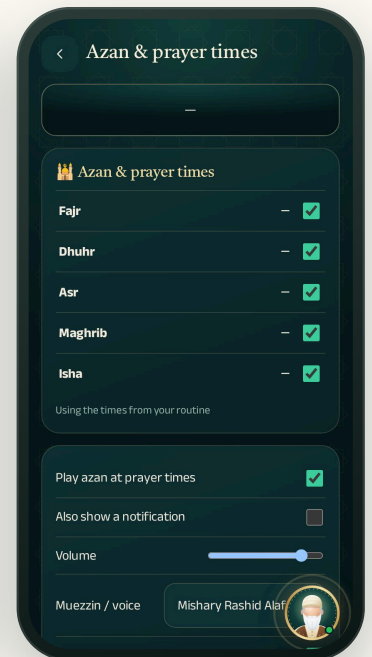

Today is your home screen: it tells you which salah is next, what is due in your studies and what you planned — all in one calm view.

What you see

- **Next prayer** with a live countdown, your city and timezone.
- **Hijri and Gregorian date** in your language, plus special days (Ayyam al-Bid, Jumu'ah, Ramadan...).
- **Today's note** — a gentle suggestion based on your prayers and plans.
- **Exams, assignments and events** cards — tap **Add** to create one.
- **After-prayer card** — the recommended recitation for the current prayer.

TODAY

AZAN SETTINGS

Azan & prayer times

- 1 Open **Amal > Azan**.
- 2 Tick the prayers you want an azan for and choose a muezzin voice and volume.
- 3 Times come from your city; adjust them to your own mosque if needed.
- 4 Turn on **Also show a notification** to be reminded when the app is closed.

Tip: the date and times follow the timezone in Settings, so they stay right when you travel.

03 ORGANISE YOUR TIME

Plan, study & focus

Exams & assignments

Add the course (type it or pick from your list), the date and time. Amalnama counts down and reminds you before it is due.

Events & plans

Seminars, programmes and to-dos. Mark them done or delete them in one tap.

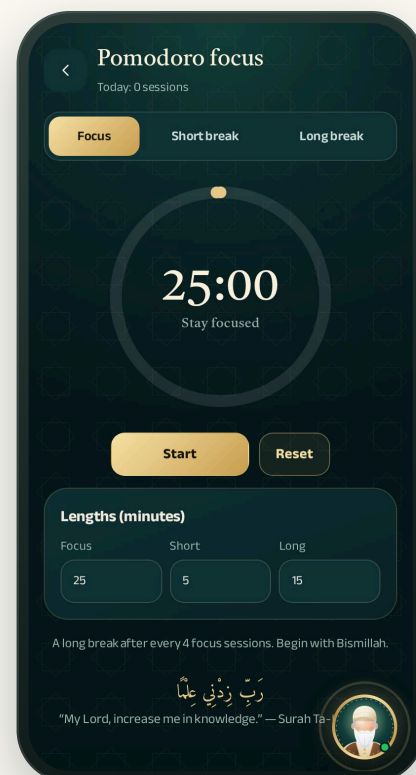

Routine

Your weekly class and study routine, shown day by day.

Google Calendar sync

Connect Google once: anything you add appears in Google Calendar, and deleting it here removes it there too.

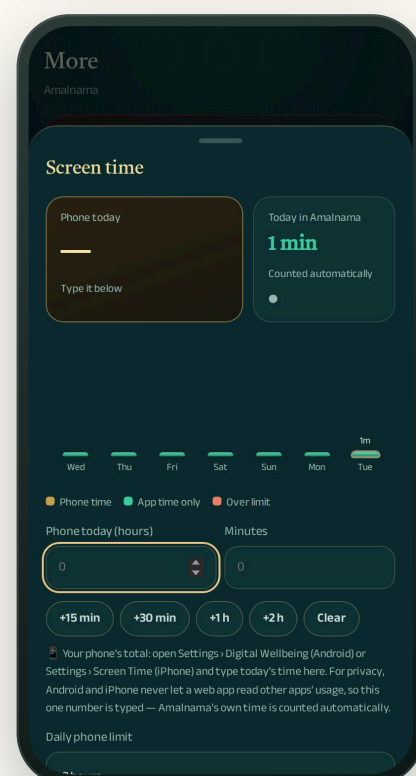

POMODORO

Pomodoro focus

- 1 Open **More > Pomodoro focus**.
- 2 Choose Focus (25 min), Short break (5) or Long break (15) — or set your own lengths.
- 3 Tap **Start**. After four focus sessions take a long break. Begin with Bismillah.

Screen time

More > Screen time shows how long you spent in Amalnama (counted automatically) and your phone's total for today. Android and iPhone don't let any web app read other apps' usage, so copy today's total from **Settings > Digital Wellbeing** (Android) or **Screen Time** (iPhone) with the quick **+15 min · +1 h** buttons. Set a daily limit and watch the 7-day chart.

SCREEN TIME

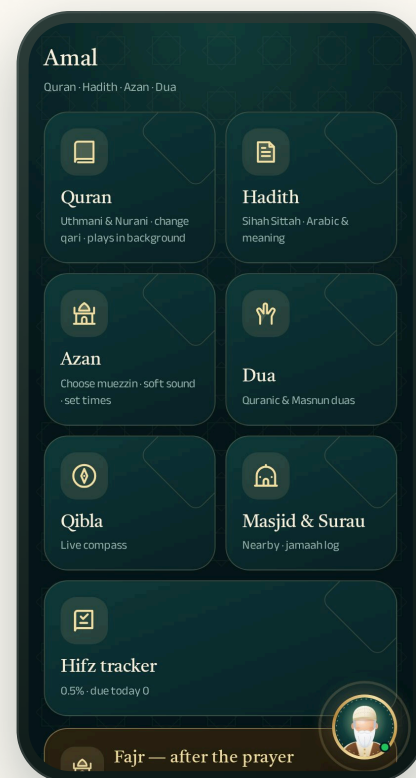

04 WORSHIP, EVERY DAY

Amal · daily deeds

The Amal tab gathers everything for your ibadah. Each tile opens a full page.

TILE	WHAT IT DOES
Quran	All 114 surahs in Uthmani and Nurani script, choice of qari, bookmarks, plays in the background.
Hadith	Sihah Sittah (the six books) with Arabic text and meaning; open any hadith by number.
Azan	Choose muezzin and volume, turn azan on or off for each prayer.
Dua	Quranic and Masnun duas for daily life.
Qibla	Live compass to the Kaaba — see page 7.
Masjid & Surau	Nearby mosques and your jamaah log — see page 7.
Hifz tracker	Memorise the Quran with spaced revision — see page 8.
After-prayer amal	Ayatul Kursi, the four Quls and the recitation for the current prayer.

Tip: the after-prayer card changes automatically with the prayer time — Surah Yasin after Fajr, Al-Mulk after Isha, and so on.

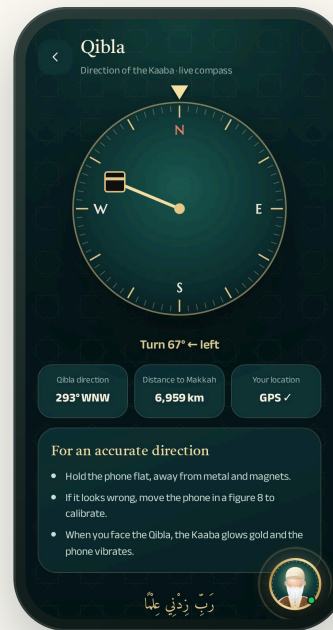

AMAL TAB

05 FACE THE KAABA

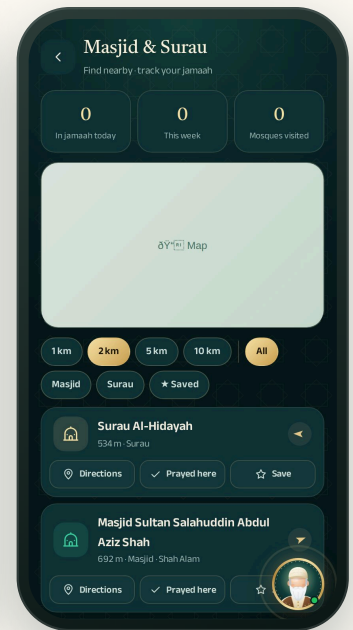

Qibla compass

- 1 Open **Amal** > **Qibla** and allow location (or set your city on the Azan page).
- 2 Hold the phone **flat**, away from metal and magnets. On iPhone tap **Start compass**.
- 3 Turn until the gold line points to the top. When you face the Qibla the dial **glows green** and the **phone vibrates**.

The page also shows the exact bearing (e.g. 293° WNW) and the distance to Makkah. If the compass looks wrong, move the phone in a figure 8 to calibrate. Phones without a compass can use the degrees, measured from North.

QIBLA

MASJID & SURAU

06 PRAY IN JAMAAH

Masjid & Surau tracker

- **Nearby mosques and suraus** on a map from OpenStreetMap — choose 1, 2, 5 or 10 km.
- Filter **Masjid** · **Surau** · **★ Saved**. The arrow shows the direction; each row shows the distance.
- **Directions** opens Google Maps. **Save** keeps a favourite.
- **Prayed here** logs which salah you prayed in jamaah — see today, this week and how many mosques you've visited.
- Results are saved, so the list still opens offline.

07 MEMORISE & KEEP IT

Hifz tracker

Track how much of the Quran you have memorised and never lose it again — Amalnama schedules your revision for you.

Record what you know

- 1 Open **Amal** > **Hifz tracker** and tap a surah in the list.
- 2 Slide to the number of ayahs you know from the start, or use **+1 · +5 · +10 · Whole surah**.
- 3 Tap **Save**. Your total, juz progress and today's goal update instantly.

Revise with spaced repetition

Every memorised surah appears under **Revision due today**. Recite it, then tap ✓ if it was strong or ✗ if you stumbled. Strong surahs come back after 1 → 2 → 4 → 7 → 15 → 30 → 60 days; weak ones return tomorrow.

Daily goal

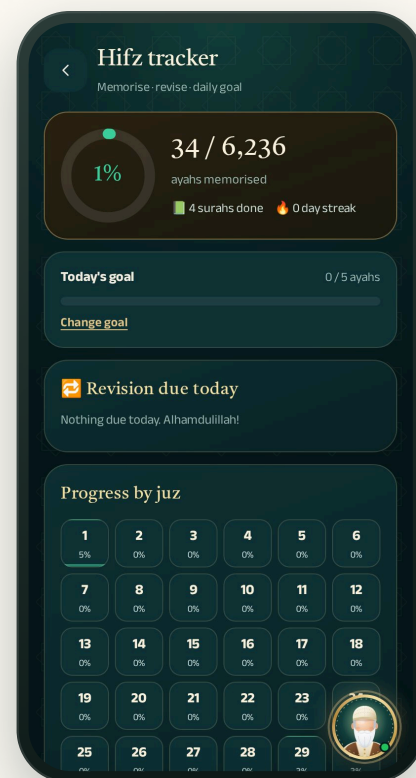

New ayahs per day (default 5) with a streak counter 🔥.

Juz heat-map

30 squares fill with green as each juz is memorised.

Search & filter

All · In progress · Memorised, or search by name or number.

HIFZ TRACKER

08 READ & LEARN Quran, Hadith & Shariah

Holy Quran

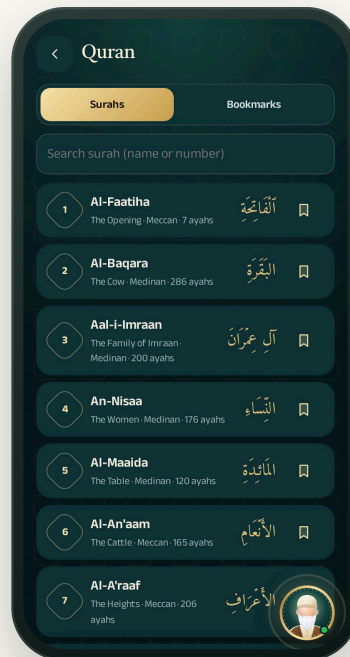

- Search a surah by name or number; switch between **Surahs** and **Bookmarks**.
- Uthmani or Nurani script and your choice of qari.
- Audio keeps playing in the background.

Hadith

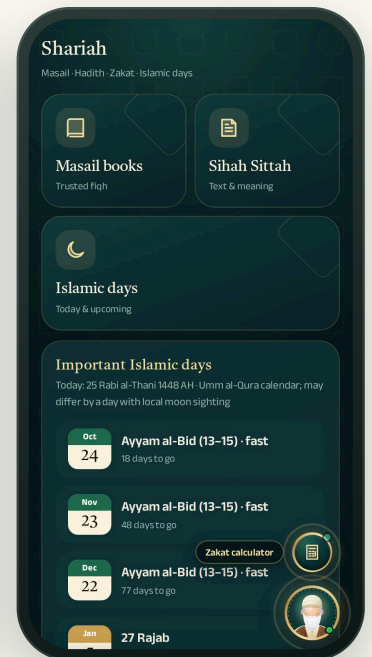

- Bukhari, Muslim, Abu Dawud, Tirmidhi, Nasa'i and Ibn Majah.
- Browse by chapter or jump straight to a hadith number.

Shariah tab

SECTION	USE IT TO
Masail books	Read Bahishti Zewar, Fatawa Alamgiri, Riyad as-Salihin, Fiqh us-Sunnah and more inside the app, in several languages.
Sihah Sittah	Text and meaning of the six books.
Zakat calculator	Enter what you own and owe — it checks the nisab and works out the 2.5% for you.
Islamic days	Upcoming fasts and occasions with a countdown.

QURAN

SHARIAH

09 ASK WITH REFERENCES Online Mufti

An AI assistant that answers questions about the deen in your language, with references from the Quran, authentic hadith, Ijma and Qiyas.

- 1 Tap the round **Mufti** avatar on any page.
- 2 Type your question — or tap one of the suggestions.
- 3 The answer appears live, ending with a **References** list (Surah: ayah, hadith collection and number).
- 4 Tap  at the top to start a new conversation. The header stays on screen while you scroll.

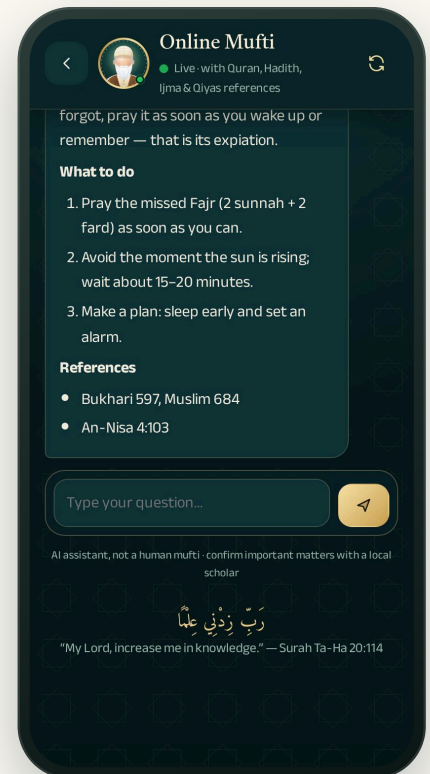

Madhhab aware

Where the four schools differ it shows the main views, noting the Hanafi position.

Works on slow internet

A fast model answers first; a second one steps in if needed. Offline it gives a short basic answer.

Please remember: the Online Mufti is an AI, not a human mufti. For divorce, inheritance, finance contracts, medical or legal matters, confirm with a qualified local scholar.

ONLINE MUFTI

10 HALAL MONEY, PLANNED

Finance & Family budget

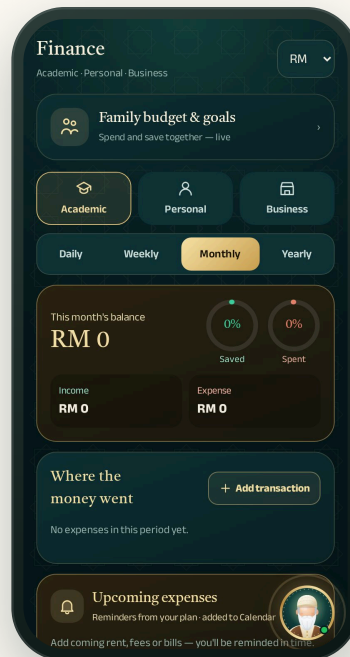

Your own money

- Three books: **Academic · Personal · Business**, each by day, week, month or year.
- **Add transaction** for income and expenses; see saved % and spent % rings and where the money went.
- **Upcoming expenses** — rent, fees, bills — with reminders added to your calendar.
- Choose your currency from the top-right menu.

Family budget & goals

- 1 Finance > **Family budget & goals** → enter your name and a family name → **Create family**.
- 2 Tap **Invite** to share the 10-character code. Family members choose **Join with code** (up to 12 people).
- 3 Add monthly **budgets** per category; anyone can **Add expense** — every phone updates live.
- 4 Create **goals** (Umrah, Hajj, emergency fund...) and tap + to add savings together.

Tabs: Budgets · Goals · Activity · Settings. The owner can rename the family or remove members; anyone can leave.

FINANCE

FAMILY BUDGET

11 BENEFICIAL WATCHING Media & Islamic videos

Fresh lectures, recitations and documentaries from trusted Islamic channels — played inside the app with no ads from us and no tracking cookies.

Categories

Mazlum Corner

Trending

Golden age & innovation

Islamic history

Debates

Learning

Dawah

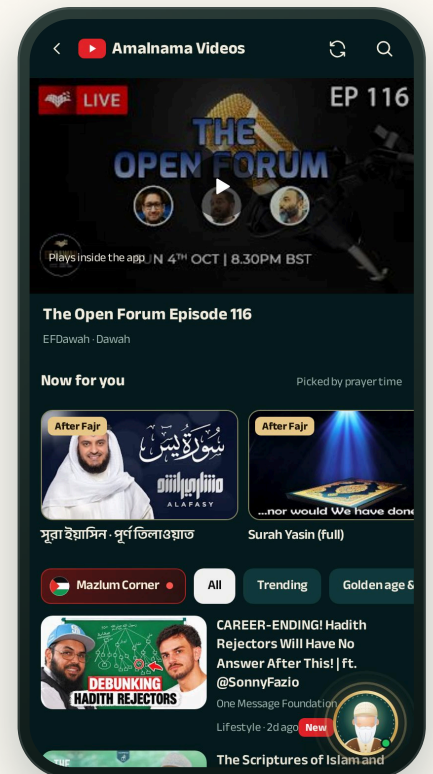

Lifestyle

Ummah affairs

How it works

- The big player at the top opens on something **new you haven't watched**, and changes on every refresh.
- **Now for you** — recitations picked for the current prayer time (Yasin after Fajr, Al-Mulk after Isha...).
- Tap  or pull down to load the newest uploads straight away.  searches every video.
- Channels include Mufti Menk, Yaqeen Institute, Omar Suleiman, Mizanur Rahman Azhari, Shaikh Ahmadullah, Yasir Qadhi, Nouman Ali Khan, Mohammed Hijab, Sapience Institute, Islamic History Bangla and more.

Tip: the list draws a few videos at a time as you scroll, so the page opens instantly even on slow phones.

MEDIA

12 STAND WITH THE OPPRESSED Mazlum Corner

The latest news, videos and lectures about Muslims who are oppressed anywhere in the world — so the Ummah never forgets them.

Open it

- The red **Mazlum Corner** chip is the first category in Media.
- Or tap the round **LIVE Palestine flag** at the top of the More page.

Regions covered

Palestine · Sudan · Lebanon · Yemen · Iran · Uyghur region · Kashmir · Rohingya · Muslims in India · and a **Worldwide** feed that catches attacks on Muslims and mosques anywhere else.

Every update shows

✂ Oppressor

Who is responsible, as reported by the UN and rights groups.

❤ Oppressed

Who is suffering.

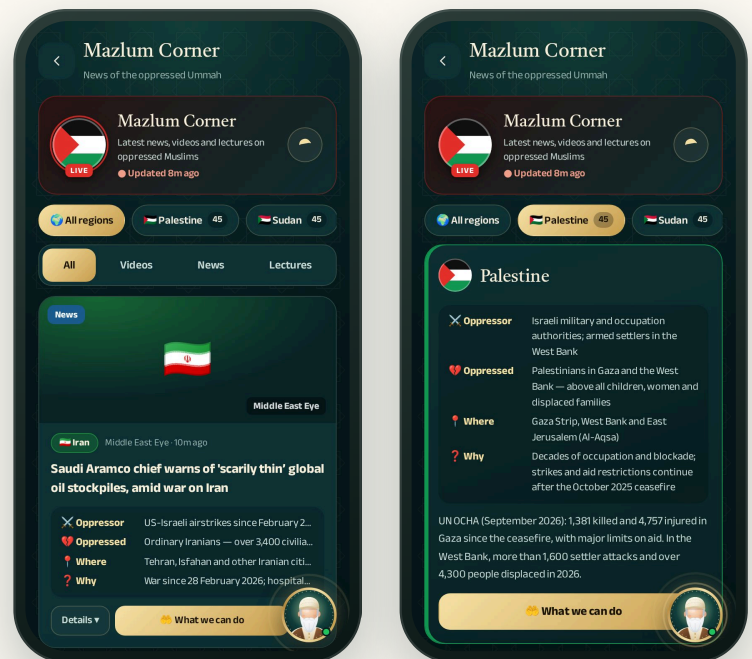

📍 Where

The place it is happening.

? Why

The causes behind it.

🤲 **What we can do** lists dua and qunut, verified charities (UNRWA, UNHCR, MSF, Islamic Relief...), sharing true news, peaceful petitions and ethical shopping, with sources. Tap 🔄 for the very latest reports — in Bangla and English.

13 A PRIVATE, HALAL SPACE

Community, stories & calls

POSTS & STORIES

VIDEO POST

MESSAGES

Join

Media > Posts → sign in with Google → send a join request. The admin approves new members to keep it safe.

Posts

- + → write, choose a card colour, add a **photo or video** (up to 20 MB).
- ... on your post → **Edit**, copy or delete. Like, comment, share, save.

Stories

- Tap your own picture → **Add a story**: text, photo or video (15 MB). It disappears after 24 hours.
- A coloured ring means a new story; tap to watch, tap the sides to skip, hold to pause.
- A **green dot** means the person is online now.

Messages & groups

- One-to-one chats and groups with photos, videos, voice notes and files (media kept 30 days).
- Group admins add or remove members and rename the group.

Audio & video calls

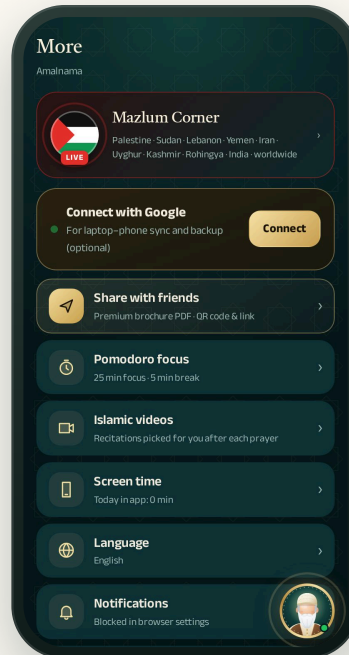

- Call anyone or a whole group from the chat header.
- Calls **ring even when the app is closed** — answer from the notification.
- Mute, camera on/off and flip camera during the call.

Respect: keep posts beneficial; the admin can remove anything harmful.

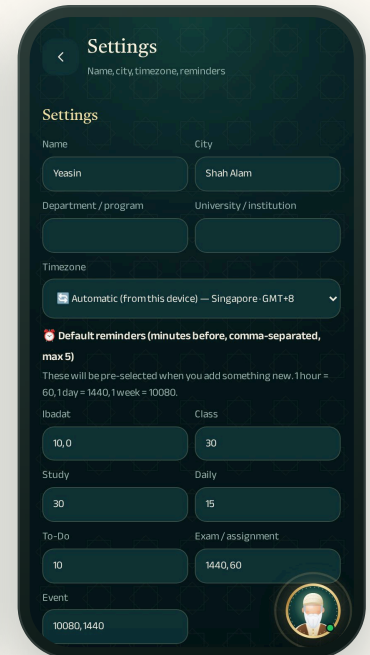

14 MAKE IT YOURS

More, settings & backup

ITEM	WHAT IT DOES
Mazlum Corner	The live Palestine-flag button at the top.
Connect with Google	Sync between devices and backup (optional).
Share with friends	QR code, link and this guide as a PDF.
Pomodoro · Screen time	Focus timer and daily phone limit.
Islamic videos	Recitations chosen for you after each prayer.
Language	বাংলা · English · Melayu · اردو · العربية · Kiswahili.
Notifications	Azan, reminders, messages and calls.
Settings	Name, city, timezone, study details, reminder times.
Backup & restore	Save everything to a file and bring it back on a new phone.
Install · Feedback · About	Install guide, send ideas or problems, privacy and terms.

MORE

SETTINGS

Back up your data

- 1 More > **Backup & restore** → **Download backup file**.
- 2 On a new phone: same page → **Restore from file**.

15 GOOD TO KNOW Tips, privacy & FAQ

Your privacy

- No ads, no selling of data, no tracking cookies.
- Deeds, notes, hifz and money stay on your device.
- Only the community, family budget and calls use the cloud — protected by security rules so only the right people can see them.

Speed & offline

- After the first visit the app opens instantly and works without internet.
- New versions download quietly in the background — just reopen the app.
- Heavy pages load only when you open them.

Frequently asked questions

QUESTION	ANSWER
Azan or call doesn't ring when the app is closed	Allow notifications for the app and turn off battery saving for your browser. Calls ring through web push.
Prayer times look wrong	Check the city and timezone in Settings, or adjust times on the Azan page to match your mosque.
The Qibla needle doesn't move	Your device may have no compass sensor — use the degrees shown. On iPhone tap Start compass and allow motion access.
No mosques found	Try a larger radius. Anyone can add a missing masjid on openstreetmap.org .
Online Mufti says "server/net problem"	Check your connection and ask again; a short offline answer is shown meanwhile.
Phone screen time shows "—"	Type today's total from Digital Wellbeing / Screen Time; web apps can't read it themselves.
I changed phones	Use Backup & restore, or connect the same Google account.
Can I use it on a laptop?	Yes — open the same link in Chrome or Edge and install it.

Something not working or an idea? [More](#) › Send feedback — every message is read.

ABOUT THE DEVELOPER
